Birthday celebration for Dato' Lee Chong Wei at Perfect Pregnancy 3.0

CryoCord successfully organized an antenatal class; Perfect Pregnancy 3.0 at The Gardens Hotel, Mid Valley, Kuala Lumpur. More than 200 parents-to-be participated in the event. Perfect Pregnancy 3.0 is designed to help soon-to-be parents to prepare for labour, birth and early parenthood.

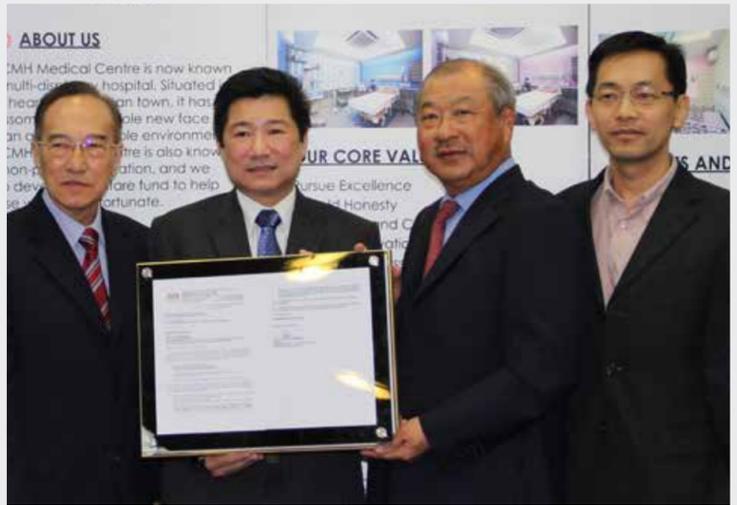

The event was graced with the presence of Dato' Lee Chong Wei and Datin Wong Mew Choo. The duo played several badminton matches with some of the lucky participants.

CryoCord's selected fans from Hong Kong also had an opportunity to share the court with the badminton ace. Towards the end of the event, a surprise birthday celebration was held for Dato' Lee.

First UC-MSC study on unrelated recipients approved by Ministry of Health

Cytopeutics is now licensed to carry out stem cell research on healthy participants. The study done by Cytopeutics in collaboration with NSCMH Medical Centre uses umbilical-cord mesenchymal stem cells on unrelated recipients and is the first of its kind approved by the Ministry of Health. This research will be led by Dr. Chin Sze Piaw, Clinical and Research Advisor of Cytopeutics.

Cytopeutics, a subsidiary of CryoCord group, is one of the leading stem cell research companies in Malaysia.

Best Stem Cell Bank for five consecutive years

CryoCord has been voted as the Best Stem Cell Bank for five consecutive years, since 2012. The voting was done by public, in an independent survey, ran by the BabyTalk Magazines across the nation. This is one of the most important recognition given to stem cell bank annually. Earning this prestigious award doesn't limit CryoCord's aim to continuously provide their best service to the community for the coming years.

WHAT'S NEW FDP-2B: The next generation of PRP

FDP-2B is an autologous (own) product of freeze-dried (lyophilization) platelets from Platelet Rich Plasma (PRP) derived from one's own fresh blood. Being rich in platelets, PRP hold essential proteins that aid in the process of healing and regeneration of tissues, in the human body. FDP-2B is specially designed for patients to be able to have multiple treatments without the hassle of withdrawing blood every time. CryoCord's clients can now enjoy rebates up to **RM1,500** with the all new FDP-2B plan. **Valid until 30th of June 2017.** Terms and conditions apply.
